City Residences

City Residences residences as a project has been conceptualised by Maxworth to provide living space to various segments of the society in the heart of Gurgaon at Sector-10A. The project will provide all the amenities that are needed for a comfortable and convenient living. Located in the city it will provide modern and open apartments to the society.

Silent Features

The project "City Residences" has been designed with an idea of sustainable design in each and every aspect of today's lifestyle needs. Each space in the apartments is designed to carve out the most usable areas with natural lighting and ventilation. Balconise have been provided to give a feel of openness inside as well as outside. Adequate green spaces with attractive landscaping have left out to add value on the ground and create a perfect living ambience.

It is now time for you too live life to the fullest, as we strike a rare balance between the joys of urban life, amenities and contemporary living.

Project Highlights

While we turn your dreams into reality a host of amenities await for you at CITY RESIDENCES.

The complex has well laid out residential towers, with adequate parking spaces in basement and ground floor, service areas, community facilities, shopping area, green area, parks and play area for children.

The project also features adequate security arrangements, 100% power back up, intercom facility and wifi connectivity.

Living room & Dining room

Each apartment has been carefully designed to provide living space of ease and value with natural flow of light and air.

The living and dining room will be provided with vitrified tiling and OBD paint finish on walls. All outside door and window frames are in UPVC finishes. Electrical connections switches and light provisions have made at appropriate places to enable efficient use of facilities.

Kitchen

Keep your tastes buds alive as you experiment everyday in the kitchen giving shapes and colours to a variety of recipes. A perfect space for your cooking needs and appliances. The kitchen will have adequate electrical and practical lighting, power connections & modular cabinets.

Bedroom

True! In your bedroom your day ends with a new journey as you pamper yourself towards rejuvenation and refreshment. The bedrooms are a place to unwind your soul, body and mind and submerge into the serenity of the world that is a cut above the rest.

The bedrooms are furnished with wooden flooring in master bedroom and vitrified in other bedrooms, OBD wall paint finishes, electrical points at suitable places and practical electrical fittings.

Bathroom

The bathrooms in all apartments are well laid out to suit your needs. You will have a complete feeling of possession when you see the fittings and fixtures in this area. Very practical to refresh you every day.
